Kathy,

Here is the layout for the pad we produced for your po# 46935. This pad was produced through our value priced program. These pads are all achieved through CMYK- Four color process. This program is for those looking for the lower price point and may not be an exact color match.

The artwork that was submitted was the logo only. There was nothing on the artwork or the po asking for a specific logo size. We reduced the logo 65% to fit it into the imprint margins.

We do have proofs available that we can email over. These proofs are for layout purposes only. I would recommend doing these proofs on all future orders to be sure of logo size and exact pad layout.

Please let me know if there is anything else I can help you with.

Thank you,  
Michele
